Education

Institut Teknologi Bandung (ITB) | Bandung, Indonesia

Bachelor of Engineering, Information System and Technology (July 2022-Ongoing)

- Expected to graduate in 2026

Professional Experience

Product Manager Intern | AlloFresh | February 2026 – May 2026

- Owned end-to-end feature development across *Shopping Experience* and *Growth Payment* initiatives by defining PRDs and translating them into actionable Jira tickets (e.g., product listing enhancements, new homepage experience, and payment-related growth features), collaborating closely with engineering and QA in sprint cycles; leveraged market research and user flow design to improve product discoverability and user engagement, contributing ~30% to stronger feature alignment and a more seamless, conversion-driven shopping journey

Data Analyst Intern | Inka Inovasi Indonesia | January 2025 – December 2025

- Conducted end-to-end analysis of sales and customer data across multiple categories, developing dashboards that drove data-informed product decisions and contributed to 2,500+ product sales, while collaborating with the product team to prioritize high-impact features in a fast-paced startup.

Product Data Analyst (Project Based) | Urban Media Indonesia | June 2025 – May 2026

- Led end-to-end analysis for SEO & Marketing campaigns, using product and user insights to guide strategy and improve engagement by 20% across government-focused projects.

Business Development Intern (Remote) | Konexi | September 2025 – November 2025 | California, United States

- Generated and qualified 200+ U.S. company leads weekly in AI and tech, leveraging insights to deliver targeted outreach, tailored IT solutions optimizing engagement and accelerating client growth.

Business Development Intern | Rupiah Cepat | July 2025 – September 2025

- Managed invoicing for 50+ companies, financial and legal documentation for 100+ companies, and procurement contracts, while conducting ISO compliance reviews for 40+ firms and driving vendor negotiations across marketing, KYC, credit scoring, and collection to ensure compliance and strengthen brand credibility.

Business Development Intern (Remote) | GAOTek Inc. | Jan 2025 – March 2025 | New York, United States

- Utilized data analysis for market research and generate leads focuses on identifying new business opportunities. Actively engaged with stakeholders and maintain ongoing communication to foster collaboration and trust.

Business Operation Analyst (Project Based) | Urban Media Indonesia | September 2023 – May 2025

- Analyzed insights for projects, aligned with project schedule and risk. Actively network with relevant officials to facilitate the acquisition of projects and tenders and track key metric. And build analytical model to evaluate outcomes of strategic projects.

Awards

- **Winner (Placed 2nd)**, HSE Global Scholarship Competition, compete against students worldwide in Mathematics Competition held by University in Russia (2022)
- **Winner**, Blog Design “Color of Our Culture” Competition, issued by Ministry of Communication and Informatics of Republic of Indonesia (2018)

Project Experience

Food Ordering Web Application – React.js | Firebase | Express.js | Docker

Platform Technology Course Project (II2210), Institut Teknologi Bandung

- Developed a web-based food ordering platform that allows users to browse menus, place and track orders in real time, with an intuitive and responsive interface designed to ensure a seamless user experience across devices.

Interactive Campus Navigation App (Ganesha Map) – Figma

Human Computer Interaction Course Project (II3131), Institut Teknologi Bandung

- Designed and drove the end-to-end development of an interactive mobile navigation app, starting from user research and problem definition through personas and user stories to interface design. Delivered an intuitive, user-centered solution that enables ITB students and visitors to navigate the complex campus environment more easily.

Virtual Physics Lab – HTML5 | CSS3 | JavaScript | Canvas API

Web and Mobile Application Development Course Project (II3140), Institut Teknologi Bandung

- Developed an interactive virtual lab to help students understand physics concepts through engaging visual simulations.

Smart Library IoT System (RackGuard) – Web & Mobile App - React.js | Tailwind | Next.js

Information Systems and Technology Engineering Course (II3240), Institut Teknologi Bandung

- Led front-end development for both web dashboard and mobile application in an end-to-end IoT-based library system, translating system requirements and user flows into responsive, user-centered interfaces; collaborated with cross-functional teams to ensure seamless integration with backend services and real-time data (RFID & cloud), enhancing usability, system transparency, and overall user experience in book discovery and transaction management
